Photo 1 of 1

Photo reading estimate: good
Note: Side panel showing ingredients, nutrition facts, sweetener declaration, manufacturer address, and net quantity.
This is an estimate, not a calibrated quality or OCR accuracy measurement.

What the label showed

Nothing to summarize yet.

Ingredients: read fully · Allergen line: read fully · Nutrition: read fully · Product details: read fully

Add at least one allergen, custom term, or diet preference to your profile to see results.

Check the pack

Only you can see the whole pack. These two answers decide how far your results can be trusted.

Is this the whole ingredient list?

- ○ Yes — the whole list is visible in my photo
- ◉ No / not sure

Does the pack show an allergen / "may contain" line?

- ○ Yes — the line is fully visible in my photo

- ○ This pack has no allergen line at all
- ◉ Not sure

Ingredients

9 rows

"As printed" is exactly what the pack says. "Recognized as" appears only when the alias list supports it. Save a correction to rerun the comparison immediately; corrected wording appears separately, and unresolved rows still need an explicit photo check.

AS PRINTED	RECOGNIZED AS	EDIT
WATER	—	
MANGO PULP (11.3%)	—	
SUGAR	—	
ACIDITY REGULATOR (330)	—	
STABILIZER (466)	—	
ANTIOXIDANT (300)	—	
SWEETENER (960a)	—	
COLOUR (110)	—	
MANGO FLAVOURS (NATURE-IDENTICAL & ARTIFICIAL FLAVOURING SUBSTANCES)	—	

Allergen statements

The photo evidence stays unchanged. Editing a phrase reruns the comparison but does not clear its review flag.

No allergen phrases were extracted. Missing OCR text does not show that the pack has no allergens. Add a clearer photo if the allergen line wasn't fully visible.

Nutrition

NUTRIENT	AS PRINTED	BASIS
energy	`44 kcal` "ENERGY 44 kcal 3.3%"	per 100ml
carbohydrate	`11 g` "CARBOHYDRATE 11g -"	per 100ml
total sugars	`10.7 g` "-TOTAL SUGARS 10.7g -"	per 100ml
added sugars	`9 g` "-ADDED SUGARS 9g 27%"	per 100ml
total fat	`0 g` "TOTAL FAT 0g 0%"	per 100ml
protein	`0 g` "PROTEIN 0g -"	per 100ml
sodium	`22.1 mg` "SODIUM 22.1 mg 1.7%"	per 100ml

From your photo Values are shown exactly as printed — including the printed zero and values that couldn't be read. LabelLens doesn't score or judge nutrition.

On the pack

From your photo

NET QUANTITY	`150 ml`

Read from your photo, as printed. LabelLens doesn't verify dates or batch codes anywhere else.

LabelLens reads label text. It can't confirm a product is safe. Check the pack yourself.
